

TEJAS KADAM

Software Engineer Intern | Quantitative & AI Systems

Email: tejaskadam209@gmail.com | Phone: +91 8591877007 | GitHub: github.com/Tejasisnothere |
LinkedIn: [linkedin.com/in/tejas-kadam2004](https://www.linkedin.com/in/tejas-kadam2004) | LeetCode: leetcode.com/u/Tejasisnothere

Professional Summary

B.Tech Computer Science and Business Systems student at Vellore Institute of Technology with a strong foundation in Data Structures, Algorithms, and quantitative problem-solving (400+ LeetCode problems solved, JEE Percentile: 96.8). Experienced in building analytical and AI-driven systems for financial and forecasting use cases, including a compliance-analysis engine and a time-series demand-forecasting platform, alongside multi-agent AI pipelines using LangChain and LangGraph. Comfortable combining rigorous engineering with data-driven decision support.

Education

Bachelor of Technology in Computer Science and Business Systems	2024 – 2028
Vellore Institute of Technology	CGPA: 8.65
Class XII — Ramsheth Thakur Public School	2023, 86%
Class X — Ramsheth Thakur Public School	2021, 98.6%

Technical Skills

Languages: Python, C++, SQL, JavaScript
Core Concepts: Data Structures & Algorithms, OOP, System Design, Full-Stack Development
Quant & AI/ML: Time-Series Forecasting, NLP, Reinforcement Learning, Agentic AI, RAG, LLM Orchestration, Structured Outputs, LLM Evaluation
Frameworks & Tools: LangChain, LangGraph, Qdrant, React, Node.js, Express.js
Developer Tools: Git, GitHub, VS Code, Jupyter Notebook, Google Colab, GitHub Codespaces

Experience

Analytical & AI Systems Development (Self-driven) Last 3+ Months

- Designed and built multi-agent, retrieval-augmented AI systems using LangChain and LangGraph, orchestrating planning, routing, retrieval, and generation across specialized agents.
- Built structured evaluation and retrieval-accuracy pipelines with Qdrant, applying dynamic query generation and metadata extraction to improve precision of data-driven outputs.

Projects

Artemis — AI Financial Compliance Analyzer *Python, NLP, LLMs*

- Built an AI-powered compliance analysis system for intelligent document processing and contextual evaluation of financial documents.
- Designed NLP pipelines for information extraction and automated compliance reasoning, integrating LLM-driven workflows to support decision-making.

ShopTrack — Retail Forecasting Platform *Python, ML, Time-Series*

- Built demand-forecasting workflows for retail data using machine learning and time-series modeling on historical sales data.
- Designed analytics dashboards to visualize forecasts and support inventory/demand decisions.

NeuralNote — Agentic AI Research Assistant *Python, LangChain, LangGraph, Qdrant, RAG*

- Built a multi-agent, retrieval-augmented research assistant that ingests, retrieves, and synthesizes knowledge from PDFs, blogs, Wikipedia, web pages, and YouTube videos into a unified knowledge base.
- Designed a modular LangGraph agent architecture (planning, routing, ingestion, retrieval, and generation agents) that dynamically selects a processing path based on source type.
- Integrated Qdrant for embedding-based semantic search, with dynamic query generation, document chunking, and metadata extraction to improve contextual accuracy and reduce hallucinations.
- Built a YouTube pipeline that transcribes relevant videos and indexes them alongside OCR-extracted text from images, auto-generating structured notes from all ingested sources.

SpendWise — Personal Finance Dashboard *React, Node.js, SQL*

- Developed a full-stack finance dashboard for expense tracking and analytics.
- Built REST APIs and frontend visualizations for real-time spending insights.

Certifications

- Agentic AI** — IBM, via Adroit ProLearn Technologies (Certificate Code: TllcO0ic93)
- Complete Data Science, Machine Learning, DL, NLP Bootcamp** — Udemy, Krish Naik / KRISHAI Technologies (99 hours; Certificate No: UC-5f033e22-aa61-475f-adb4-831f263648a3)

Achievements

- Solved 400+ LeetCode problems demonstrating strong problem-solving skills.
- Hackathon Finalist (3x)
- JEE Percentile: 96.8
